Increasing Pre Kindergarten Students Letter Recognition Through the use of Apps in a Private School Setting

Corrie Giugni

Dominican University of California

School of Education and Counseling Psychology

April 23, 2015

Research Question

What is the effectiveness of using tablet apps for letter recognition in a private school setting for Pre K students measured by pre and post test scores?

Key Points

1. Technology- Using tablet apps increases students intrinsic motivation
2. Students have increased on task behavior when using tablets
3. Using technology is not a choice.....it is where we are going.

Research Method

- 24 students four and five year olds
- Pre-test, post-test on letter recognition
- Using tablets with letter recognition apps
- Evaluating growth over time
 - 5 days a week 15 minutes for 4 months

Findings

Increase in letter recognition skills

Kids love it!

Discussion

Successful!

Reflection

I am sold on using technology in my classroom!
